

## Hotels – Oxford & Zurich Open Strategy Workshop 2024

We have compiled this list of hotels with the help of the university. It offers conference participants various overnight accommodations at special rates.

The rates apply to individual bookings and, depending on the season and daily rate, can sometimes be booked directly through the hotels at a lower rate. For contingent bookings, you may contact the respective hotel directly.

If you get in touch with the hotels directly, please provide them with:

- Your arrival and departure dates
- Your preferred room category
- A note stating that you are “participating in the Open Strategy Workshop, an event organized by the University of Zurich, and would like to receive the discounted university rate.”
